"Service Unexcelled"

Effective 1/4/2021 SMT will implement a 5.9 percent general rate increase affecting our interstate and intrastate class tariff SMT500. Minimums will be increased by \$2.00. This general rate increase is being made to offset industry specific cost increases and to support our on-going investments to improve our service offerings. Our new rate base will be available on our website by the effective date. If you have questions please contact your sales representative. Thank you.
